

BUSINESS PARTNER PROGRAM

Preventative Maintenance

Weekly updates, Malware removal and PC Monitoring includes... Antivirus definition files, System Logs, Hardware Errors, Network Conflicts, System Resources and much more.

Data Protection

Protect critical business data and rest easy knowing every day your data will be encrypted and backed up to offsite servers automatically and monitored for any errors.

Lower Rate Onsite Service

Clients enrolled in our Business Partner Program are offered a lower rate for ALL On-Site Service calls.

Priority Service

Having a Business Partnership Program allows us to prioritize the requests we receive throughout the day to ensure our Business Partners receive priority IT Support.

Remote Computer Service (RRx)

As long as you have high speed internet we can connect to your computer and troubleshoot and fix any performance or virus related problems.

Google Apps For Business

Google Apps offers cloud or web based productivity software for your office including Gmail for Business email accounts on your domain, file storage, shared calendars and much more!

What does it cost?

**Initial setup is \$150 (up to 25 units).
 Monthly cost is \$100 for first unit and \$20 for each additional unit.
 (Initial setup fee waived for 1 year contracts)**
